Sebo Vet

Shampoo

Antiseborrheic Keratolytic Cleansing

Tar Free Medicated Shampoo For Dogs, Cats and Horses

Directions for Use: Sebo Vet (Salicylic Acid Zinc Gluconate Pyridoxine Hydrochloride) is a topical medication prescribed to treat pets that are suffering from fungal infections affecting the skin. It operates by interfering with the reproduction of fungal cells to stop the spread of infection allowing the immune system to eliminate it. This medication is commonly prescribed for long term use and may take several applications before the desired results occur. It may be used along with other medicines or to treat other conditions not listed here.

Benefits :

- Removes scales, crusts and excessive oil associated with keratoseborrheic disorders this involves
- Conditions such as sicca, which is dry, scaly, dull skin coat with white or gray scales present, or oleosa,
- Delays onset of skin irritation due to topical bacteria or yeast.
